University of Oregon's Master of Public Administration – Graduation Statistics

The Network of Schools of Public Policy, Affairs, and Administration recommends that graduation statistics be computed based on the cohort entering five years prior. For those who started Fall 2020, 16 students entered in the incoming cohort. Among these students, 9 graduated within 2 years, and 5 graduated within 3 years. There were no new graduates within 4 years. Students that took longer than two years are typically part-time students or involved in concurrent degree programs. Last updated November 3, 2026.
